Please extend this FOIA to early May to allow for the Upper Cement Creek/Upper Animas FOIA to get completed.

Yes, I can confirm the extension for my request.

I'm asking for the names of all sites in Colorado with scoring at or greater than 28.5. I'd like to know the dates they received the scores as well.

Thanks,

Tristan

Hi again Tristan, Please send me email confirmation that you have approved an extension to the FOIA ([EPA-R8-2013-004683](#)) for Colorado sites scoring at or greater than 28.5 with the understanding that others who received the request did not get it to our program for two week. Due to this delay, I just received your request last week, the only releasable records I have at this time are in the process of being reviewed for another FOIA, which will take beyond the deadline of your FOIA to complete, and that if additional Colorado sites' records are identified as responsive to your FOIA, they will be processed and released as quickly as possible.

Sincerely,

Sabrina

As part of my FOIA, I'd also like to get the date each site was ranked with 28.5 or above.

Thanks!
